This exploded perspective view shows the assembly of the motor. The main components are labeled as follows:

- 725**: A cable or wire extending from the motor housing.
- 730**: A component, possibly a stator or part of the motor housing, with a central shaft.
- 734**: A component, possibly a rotor or part of the motor housing, with a central shaft.
- 740**: A small component, possibly a sensor or switch, mounted on the motor housing.
- 736**: A component, possibly a stator or part of the motor housing, with a central shaft.
- 731**: A component, possibly a rotor or part of the motor housing, with a central shaft.
- 726**: A large, cylindrical component, possibly a motor housing or a large stator, with a central shaft.
- 743b**: A component, possibly a stator or part of the motor housing, with a central shaft.
- 742b**: A component, possibly a rotor or part of the motor housing, with a central shaft.
- 743a**: A component, possibly a stator or part of the motor housing, with a central shaft.
- 742a**: A component, possibly a rotor or part of the motor housing, with a central shaft.
- 735**: A component, possibly a stator or part of the motor housing, with a central shaft.
- 741**: A component, possibly a rotor or part of the motor housing, with a central shaft.
- 732a**: A component, possibly a stator or part of the motor housing, with a central shaft.
- 732**: A component, possibly a rotor or part of the motor housing, with a central shaft.
